

Ford Falcon Technical Articles Index

Falcon Club of America

Ed Sickels (FCA #119) of Frederick, Maryland has compiled an amazing Index of all the Tech Tips that have appeared in *The National Falcon News*, going all the way back to 1980!

This articles index was presented in the May 2008 *The National Falcon News* newsletter.

This is such a useful and important list that the FCA officers felt it should be posted to our national Web site, www.falconclub.com.

This information is another valuable service and value that our club offers to our members. We trust that many of our members will find this information of value. Remember, our Head Technical Advisor Bruce Wolfe, stands ready and available to provide all the technical advice available for our club members.

We hope you enjoy this addition to our Web site and find it useful.

Thank you, Ed Sickels for this wonderful information.

Presented to you on our FCA Web site by your FCA officers.
